

Autorisity Works

Transport/Freight Division

Autorisity Works is a Chicago-based logistics company that specializes in tasks for artists and creative professionals. Services include photographic documentation, gallery installation, and transport. We are committed to providing the best possible services through having a comprehensive understanding of our clients' needs and preferences.

The transport/delivery service uses a van and is therefore limited to cargo that does not exceed 4'x4'x7' (for enclosed objects) and objects that can be strapped to the roof of the van. The service also has options for personnel transport. Autorisity Works specializes in art handling and transportation of A/V equipment. We are sensitive to the contents of your cargo and take the necessary precautions to prevent damage to your valuables.
